EDUCATION

Computer Science
Westminster College

08/2017 - Present

Courses

- Algorithms
- Computer Networks
- Databases
- Software Engineering
- Computer Architecture
- Computer Security
- Functional Programming
- Web Applications

PROJECTS

Park City Sitters (08/2019 - 12/2019)
- Working in a group to develop an application to be used to help streamline the work of a local business. The application would allow the admin to add jobs to be available for the employees to then accept.

Math Racer (02/2020 - 05/2020)
- Group project to construct a game that allows lower elementary level kids to practice math problems. Built in the Unity platform to create a full 3d game that allows the player to drive a kart around a level practicing simple math questions.

WORK EXPERIENCE

Sales Associate
Best Buy

07/2019 - Present

Achievements/Tasks

- Assists customers in making informed decisions when purchasing new technology.
- Having information on many different systems and machines to help customers make informed decisions.
- Restocking and organizing products in the correct place.
